

Bennett Antonneau

AntonneauWebDev.com - 414-731-5209 - benantonn@gmail.com - www.linkedin.com/in/benantonn/

Education

University of Wisconsin-Madison - Madison, WI

May 2021

- Retailing & Consumer Behavior - Bachelor of Science

University of Minnesota-Twin Cities - Minneapolis, MN

August 2023

- Full Stack Bootcamp - Portfolio: AntonneauWebDev.com

Skills

HTML | CSS | JavaScript | React | Node.js | Express.js | MongoDB | MySQL | MVC Framework
Restful APIs | GraphQL | OAuth | Bootstrap | Git | Heroku | NPM | Agile Development | Adobe Creative Suite

Development Experience

Job Board Application | <https://tinyurl.com/JobMode> | <https://github.com/bantonneau/jobBoard>

- Collaborated with a team of three using Agile methodologies to create a Job Board Application.
- Employed Node.js, Express.js, Handlebars.js, and MySQL with Sequelize ORM, underscoring my full-stack proficiency.
- Demonstrated deployment expertise by integrating the app with Heroku and JawsDB.

React Portfolio | <http://antonneauwebdev.com/> | <https://github.com/bantonneau/react-portfolio>

- Developed a dynamic individual portfolio website utilizing the React framework, showcasing component-based architecture and UI/UX proficiency.
- Incorporated best practices with semantic HTML, responsive design, global/reset CSS, ensuring a consistent and optimal viewing experience across devices and browsers.

Social Media API | <https://tinyurl.com/socialAPI> | https://github.com/bantonneau/social_media_api

- Spearheaded the creation of a backend-centric Social Network application using Express.js, MongoDB (via Mongoose), and Moment.js for optimal server and database management.
- Designed and implemented a robust API with comprehensive CRUD functionalities for users, thoughts, and reactions, showcasing my expertise in backend development and data handling.
- Ensured the seamless performance of API endpoints through rigorous testing using tools like Insomnia Core and Postman.

Employment History

UW-Madison, Division of Information Technology - *IT Support Specialist*

March 2022 - Present

- Problem-Solving Expertise: Diagnosed and addressed diverse software and hardware challenges for students and faculty, showcasing analytical and troubleshooting skills vital for web development.
- Versatile Technical Support: Managed both software and hardware concerns spanning from personal devices to departmental equipment, indicating a breadth of technical knowledge.
- Adaptability & Learning: Navigated an ever-evolving range of technical issues, highlighting the ability to quickly adapt and learn in a dynamic tech environment, crucial for the ever-changing world of web development.

Kohl's - *Assistant Designer for Denim (SO and Sonoma)*

March 2022 - Present

- Digital Design Mastery: Utilized Adobe Illustrator and Photoshop for designing new product lines, demonstrating proficiency in industry-standard design tools relevant to web development and graphic design.
- Market Research & Strategy: Conducted in-depth market research on competitors, liaising with trend teams to pinpoint key market trends, emphasizing analytical skills and strategic thinking.

Technical Design Intern - *Colony Brands, Inc.*

March 2022-Present

- Digital Design Skills: Created and refined tech flats, patterns, spec sheets, and tech pages using industry-standard tools, demonstrating proficiency relevant to web and graphic design.
- Software Proficiency: Engaged extensively with Flex PLM software, assigning product details and managing digital assets, illustrating adeptness in software tools parallel to web development platforms.
- End-to-End Understanding: Shadowed design and QA processes, gaining a comprehensive view of product development from inception to completion, underscoring the importance of full-stack development knowledge.
